EDUCATION

Bachelor of Software Engineering *(In Progress)*
National University of Modern Languages (NUML), Islamabad Expected Graduation: 2027

TECHNICAL & BUSINESS PROFICIENCIES

1. Customer Service: Active listening, conflict resolution, communication (written & verbal)
2. Project Management: Task tracking, team collaboration, documentation, Agile basics
3. Digital Marketing (Certified): SEO, Content Writing, Social Media Management (via DigiSkills)

PROJECTS

1. **Workflow Automation Platform (n8n Clone) – MERN Stack, React.js, Node.js, TypeScript**
Built a workflow automation platform inspired by n8n, featuring a visual drag-and-drop workflow builder, custom nodes, API integrations, and real-time execution tracking. Enabled users to automate business processes through scalable and user-friendly workflow management.
2. **Chess Web App – MERN Stack**
Built a fully functional multiplayer chess application with real-time gameplay, online friend matches, and robust game state management. Delivered an intuitive, responsive UI for smooth player interaction across devices.
3. **3D iPhone Showcase Website – React.js, GSAP, Tailwind CSS**
Designed and developed an interactive 3D product showcase for iPhone using GSAP animations and scroll-based transitions. Delivered a sleek, immersive frontend experience highlighting modern UI/UX practices.
4. **Mental Health Stress Predictor – React.js, TypeScript, ExcelJS, Python**
Created an AI-powered tool for predicting stress, anxiety, and depression from survey datasets. Enabled users to upload Excel files and receive calculated scores with statistical insights for research and early detection.
5. **React Admin Dashboard – Next.js, TypeScript, Tailwind CSS, GraphQL, Chart.js**
Developed a scalable admin dashboard with real-time data updates, interactive charts, event calendar, Kanban board, and CRM features. Optimized for performance and usability to meet diverse business needs.
6. **Employee/School Management Systems – MERN Stack, NextJS, React, Tailwind CSS**
Built a responsive employee management platform with secure authentication, dashboards, employee profiles, and leave tracking. Integrated frontend and backend through APIs for seamless real-time updates.

ADDITIONAL SKILLS

1. **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, TypeScript, Responsive Design, GSAP Animations
2. **Full Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), GraphQL, RESTful APIs, JWT Authentication
3. **Backend & APIs:** Node.js, Express.js, MVC Architecture, API Integration, Real-time Updates (WebSockets/GraphQL Subscriptions)
4. **Programming Languages:** JavaScript, TypeScript, Python, Java, C, C++
5. **Database Management:** MongoDB, SQL, GraphQL, PostgreSQL
6. **Data & Tools:** ExcelJS (data processing), Chart.js (data visualization)
7. **Version Control & Platforms:** Git, GitHub, Postman, VS Code, WordPress
8. **Other Skills:** IT Support, Troubleshooting, Networking Basics, Windows/Linux System Administration, AI Tools

PROFESSIONAL AND SOFT SKILLS

1. Excellent **communication** and **active listening** skills
2. Strong **project management** and **team collaboration** abilities
3. Skilled in **time management**, problem-solving, and multitasking
4. Experienced in **team management** and client-facing roles
